It seems Chode has finally gone too far. Bobo is insane with rage and who can blame him? His daughter Babette claims she is pregnant with the purple pervert's child. As Chode and the crew work on their latest kronig-making scheme, (a "princess protection" racket), they are unaware that a cyborg killing machine, the "Chode-Eraser", has been sent back in time by Bobo to eliminate the copulating captain before he can do the dirty deed. At first surviving the attempts on his life by a combination of ignorance and pure luck, Chode finally realizes the danger he is in and takes steps to avoid his gruesome fate. But nothing can deter the Chode-Eraser. The final confrontation takes place during Chode's latest scam, his bogus birthday party, the very event Babette claims the sordid sex act took place. Will Chode ever live to see his real birthday or will the whole affair end in the same manner as his roll in the hay with Babette - with him coming out on top?
