

## Mini Pet Pals

NOUVEAUTÉS

The large playground of a green and leafy park is the setting for the new adventures of the Mini Pet Pals. In each episode there is a small inconvenience, a problem to be solved, a curiosity to be satisfied, a particular emotion which affects one of our little heroes. These of course hide difficulties which must be overcome, also with help of an old and wise tree which dominates the park. Young viewers are directly involved in the adventures. **Not to be missed!**
